PROFESSIONAL SUMMARY

Experienced Frontend Developer with over 2.5 years of expertise in creating dynamic, responsive web applications. Proficient in state management, API integration, and implementing client-side routing to deliver seamless user experiences. Adept at collaborating with cross-functional teams to ensure scalable and efficient solutions. Passionate about continuous learning and leveraging innovative technologies to enhance development processes.

SKILLS

- Frontend Technologies: HTML, CSS, SASS, JavaScript, React.js, Redux, TypeScript (Intermediate), Angular (Intermediate)
- Frameworks and Tools: Bootstrap, Material-UI, Tailwind CSS, Axios
- Version Control: Git, GitHub
- State Management: Redux Toolkit, Context API
  Other Tools: Webpack, npm, Yarn

PROFESSIONAL EXPERIENCE

Software Development Engineer | 2024-current

Siprtc

- Designed and developed the frontend architecture for CPaaS (Communication Platform as a Service), including API integrations and modular components for real-time communication features.
- Built and deployed a Billing Portal, ensuring an intuitive user experience with seamless integration of APIs for payment processing and invoicing.
- Developed the Dialog 365 Website, focusing on performance optimization, cross-browser compatibility, and responsive design.
- Collaborated with backend teams to ensure efficient data handling and real-time updates.

React Developer | August 2022 – March 2024

Codes N Coffee

- Maintained and optimized React components to enhance UI flexibility and scalability.
- Implemented state management using Redux, significantly improving application performance and reliability.
- Built and integrated APIs for data flow and real-time updates.
- Designed and developed responsive user interfaces to improve accessibility and user engagement.
- Participated in cross-functional meetings to align with project goals and offer solutions for complex problems.

PROJECTS

CPaaS (Communication Platform as a Service)

- Designed and developed the frontend interface using Angular, ensuring a user-friendly and visually appealing experience.
- Collaborated with backend teams to integrate APIs for seamless data rendering.
- Delivered a fully responsive design, optimized for compatibility across various devices and browsers.

Billing Portal (Siprtc)

- Developed an intuitive and responsive user interface for managing core functionalities like trunks, roles, phone numbers, and services.
- Created interactive dashboards for tracking trunks, phone numbers, and service subscriptions.
- Optimized performance by implementing efficient state management using Redux.
- Built an intuitive role-based access control interface, allowing seamless assignment and management of user permissions.
- Focused on security by implementing token-based authentication and role-based access control.

Dialog 365 Website (dialog365.ai)

- Built a modern, responsive website for Dialog 365 using React.js and Tailwind CSS.
- Integrated APIs for user authentication, notifications, and data visualization.
- Enhanced site performance through code-splitting and lazy loading techniques.

Sweat Pilates (Payment Gateway Website for Gym, sweatpilates.in)

- Integrated payment gateway using React Hook Form for data handling.
- Enhanced user experience with animations via LottieFiles.

Jumbo Holidayz Website (Airbnb-like Platform, jumboholidayz.com)

- Developed booking features, including a calendar for hosts to manage availability.
- Implemented protected routes for user and host roles.
- Created wishlist functionality and a secure payment system.

EDUCATION

React.js Certification

Try Catch Institute, Borivali | 2022

Diploma in Mechanical Engineering

A.I.R.K.P., Panvel, India | 2011–2014

Bachelor of Engineering (Mechanical)

University of Mumbai, Mumbai, India
May 2014–2017

CERTIFICATIONS & TOOLS

- **React.js Certification (2022)**
- **Expertise in npm, Webpack, and Yarn**
